2022-2023 Recap

# Hillside School SATp

## Mission

What are we rooted in? What is our purpose?

To inspire and foster all students to fulfill their individual potential and gain a passion for life-long learning by cultivating a partnership with families, staff and the community.

# Hillside School SATp

## Vision

What do we want for our students?

The vision for our students at Hillside Elementary School is for them to be self-assured of their potential. It is our vision that all our students understand their greatness and that they each have special gifts and talents and that it is the school's responsibility to identify and nurture those talents.

2022-2023 School Year Goals

2022-2023 GOAL

Individualized Instruction and Equity for All

# Hillside School SATp

2022-2023 School Year Goal

## Individualized Instruction and Equity for All

### GOAL #1- Individualized Instruction Extended Day

Students who are not on grade level are provided with an opportunity to meet with a teacher tutor.

# Update

Info received from Ms. Morrisroe (SATp Teacher Partner/ Extended Day tutor)

- Multiple measures to determine eligibility (and progress)
- 35 students enrolled in the program
- Students are grouped by grade
- Many students moved out of the program for one or both subjects throughout the year (ELA and Math)
- Benchmark assessments and teacher observations used to determine progress

Teacher goals for next year:

- Receive increased funding in order to support a larger number of students
- Reach out to MHS earlier in order to arrange class schedules

Parent recommended goals for next year:

- Parent 101 session/ one-on-ones
- Bi-weekly synopsis of child's performance/ how to assist at home
- Shared portfolio of student work throughout their time

**Inspirational Women: A Women's History Month Book List**

**Women's Suffrage** by Deborah Kaps (MPL, BCCL)

Profile early leaders in the fight for women's rights, especially the right to vote, including Mary Wollstonecraft, Lucretia Mott, Sojourner Truth, and Elizabeth Cady Stanton.

**The Split History of the Women's Suffrage Movement: A Perspectives Flip Book** by Don Marbo (MPL, BCCL)

Describes the opposing viewpoints of women's suffragists and anti-suffragists in the United States beginning in the mid-19th century.

**Real American Women A-Z** by Kate Schatz (MPL, BCCL)

Profiled are 26 American women from the 18th through 20th centuries, who have made or are still making history as artists, writers, teachers, lawyers, or athletes. The women come from a variety of economic and ethnic backgrounds and many had to overcome extreme hardships. One woman represents each alphabetical letter beginning with Angela Davis, an activist, teacher, and writer, and concludes with Zora Neale Hurston, an anthropologist and writer.

**Slavery Abolished: Voting Visionary** by Andrea J. Loney (MPL, BCCL)

Slavery Abolished is an activist who works for fair voting rights. She's a lawyer, an author, and a Nobel Peace Prize nominee. Join Experience all the exciting moments in Slavery's thrilling life in this exciting biography, packed with two-color illustrations and fun facts, like how the census helps everyone!

**Marie Curie** by Iest Howell (MPL, BCCL)

Nobel Prize winner Marie Curie pioneered research in radioactivity and made invaluable contributions to the scientific community. Middle-grade readers will learn how influential figures in S.T.E.A.M. like Marie Curie, made massive contributions to their fields and how their stories and discoveries remain relevant today.

**Untamed: The Wild Life of Jane Goodall** by Anita Silvey (MPL, BCCL)

This biography for children will trace Goodall's life, but each chapter will also focus on two or more the chimpanzees that she observed, with information in italics about these particular animals. Along with biographical details, the book will explore the ethical issues that surround Goodall's work and show what has changed in our understanding of Great Apes. What do we know today about these animals in terms of language, speech, tool use, and DNA? How has sophisticated technology - GPS systems, satellite imagery, portable digital microphones - been used to gain new information about animal populations.
